Case Study Block 10 Remediation

TRAINEE

Deputy Aaron Gates

Trainee Bio

Deputy Gates is a 21-year-old male with a high school education. He lives with his parents. He has worked as a clerk in an auto parts store since high school, but has always wanted to be a deputy sheriff. Deputy Gates put himself through an extended basic police academy while still working as an assistant manager at the auto parts store. He was an average student in the academy. The academy staff noted that while he gave 100% effort at all times, he was only able to graduate in the middle of his class.

Scenario Description – Remediation

Deputy Gates was given a training plan to improve his skills and effectiveness with regard to his searching techniques. Since then, Deputy Gates has made minor improvements, but is still hesitant in his searches.

You and Deputy Gates contact a local heroin addict who was suspected of committing local burglaries. Gates arrests the suspect for an outstanding warrant and after searching him, places him in the patrol car. Detectives hear about the arrest and meet you at your location. You agree to allow the detectives to transport the suspect back to the station for interrogation. Prior to placing the suspect in the detectives' car, a detective searches the suspect and locates a .380 semi-auto pistol in the suspect's crotch area.

Develop a remediation plan to correct Deputy Gates' deficiency.
